## Tillage and Harvest

- |  |  |
|--|--|
| <input type="checkbox"/> Bed row spacing                           | <input type="checkbox"/> Multi-year crop                 |
| <input type="checkbox"/> Chemical irrigation                       | <input type="checkbox"/> Night farming                   |
| <input type="checkbox"/> Combining tractor operations              | <input type="checkbox"/> Planting based on soil moisture |
| <input type="checkbox"/> Conservation irrigation                   | <input type="checkbox"/> Reduced harvest activity        |
| <input type="checkbox"/> Conservation tillage                      | <input type="checkbox"/> Reduced tillage system          |
| <input type="checkbox"/> Equipment modification                    | <input type="checkbox"/> Tillage based on soil moisture  |
| <input type="checkbox"/> GPS tractor or implement management       | <input type="checkbox"/> Timing of a tillage operation   |
| <input type="checkbox"/> Limited activity during a high wind event | <input type="checkbox"/> Transgenic crops                |

BMP Implementation Date: \_\_\_\_\_ to \_\_\_\_\_

## Non-Cropland

- |  |   |
|--|---|
| <input type="checkbox"/> Access restriction      | <input type="checkbox"/> Reduce vehicle speed               |
| <input type="checkbox"/> Aggregate cover         | <input type="checkbox"/> Synthetic particulate suppressant  |
| <input type="checkbox"/> Artificial wind barrier | <input type="checkbox"/> Track-out control system           |
| <input type="checkbox"/> Critical area planting  | <input type="checkbox"/> Tree, shrub, or windbreak planting |
| <input type="checkbox"/> Manure application      | <input type="checkbox"/> Watering                           |

BMP Implementation Date: \_\_\_\_\_ to \_\_\_\_\_

## Cropland

- |  |   |
|--|---|
| <input type="checkbox"/> Artificial wind barrier             | <input type="checkbox"/> Mulching                           |
| <input type="checkbox"/> Cover crop                          | <input type="checkbox"/> Multi-year crop                    |
| <input type="checkbox"/> Cross-wind ridges                   | <input type="checkbox"/> Permanent cover                    |
| <input type="checkbox"/> Cross-wind strip-cropping           | <input type="checkbox"/> Planting based on soil moisture    |
| <input type="checkbox"/> Cross-wind vegetative strips        | <input type="checkbox"/> Residue management                 |
| <input type="checkbox"/> GPS tractor or implement management | <input type="checkbox"/> Sequential cropping                |
| <input type="checkbox"/> Manure application                  | <input type="checkbox"/> Surface roughening                 |
|  | <input type="checkbox"/> Tree, shrub, or windbreak planting |
